

Fienile

Daniel Rybakken, 2019

EN Fienile, a table lamp inspired by the image of simple rural haylofts in Norway, featuring a low pitched roof and central/lateral walls in satin-finish anodized aluminium. A work of micro-architecture that projects soft, warm light from above onto a lower surface, giving rise to unusual compositions of brightness and shadow. The light slides along the lateral walls with a wall-washer effect, created by the LED sources with dimmers, by means of a touch function. The Fienile family also includes an a suspension lamp version.

IT Fienile, nella sua versione tavolo che s'ispira ai semplici edifici rurali della Norvegia attraverso una struttura scandita da un tetto basso e spiovente, pareti centrali e laterali in alluminio anodizzato satinato: una microarchitettura che dall'alto proietta una luce morbida e calda sul piano sottostante, dando vita a inusitate composizioni di luci e ombre. Lungo le pareti laterali la luce scivola con effetto wall-washer creato dalle sorgenti LED dimmerabili con funzione touch. La famiglia Fienile include anche una versione a sospensione e due varianti per outdoor.

DE Fienile in seiner Tischversion, inspiriert von Norwegens einfachen ländlichen Gebäuden mit ihrer niedrigen, schrägen Dachkonstruktion, den Zentral- und Seitenwänden aus satiniertem, anodisiertem Aluminium: eine Mikroarchitektur, die ein weiches und warmes Licht von oben auf die darunter liegende Ebene projiziert, wodurch ungewöhnliche Licht- und Schattenspiele entstehen. Entlang der Seitenwände gleitet das Licht mit einem Wall-Washer-Effekt, der durch dimmbare LED-Quellen mit Touch-Funktion erzeugt wird. Die Modellreihe Fienile umfasst zudem eine hängende Ausführung.

FR Fienile dans sa version table inspirée des simples bâtiments ruraux en Norvège, grâce à une structure avec un toit bas et incliné, des parois centrales et latérales en aluminium anodisé satiné : une microarchitecture qui projette de haut en bas une lumière douce et chaude, en créant des compositions inhabituelles de lumières et d'ombres. Le long des parois latérales, la lumière glisse avec un effet lèche-mur créé par des ampoules LED dimmables avec fonction tactile. La gamme des lampes Fienile comprend également une suspension.

ES Fienile, en su versión de mesa, que se inspira en los sencillos edificios rurales de Noruega a través de una estructura marcada por un techo bajo e inclinado, paredes centrales y laterales de aluminio anodizado satinado: una microarquitectura que proyecta una luz suave y cálida sobre la superficie que se encuentra debajo, creando composiciones inusuales de luces y sombras. A lo largo de las paredes laterales la luz se desliza con efecto bañador de pared generado por fuentes LED atenuables con función táctil. La familia Fienile también incluye una versión en suspensión.
